Service Overview	Prospective Client	v2.3 - 2026	spctr.run

IDENT_FILE – V2.3

NOT YOUR TYPICAL AGENCY.

Lean by design. No middlemen. Just results.

SPCTR runs **lean by design**. No account managers, no handoffs, no brief getting lost in a chain of people who never talked to you. You get a **direct line to the strategist running your campaign** – someone who knows your ICP, knows your goals, and is **personally invested in your results**. That's not a limitation. That's the advantage.

// 01

BOUTIQUE BY DESIGN

Small roster. Full attention. You're not account #47 – every campaign gets the focus it deserves, from the person actually running it.

// 02

LOW BARRIER TO ENTRY

No massive retainers. No long-term lock-in. Start with one campaign, see real results, then decide.

// 03

RELATIONSHIPS FIRST

Every client SPCTR takes on is a partnership, not a transaction. Your pipeline is treated like it matters – because it does.

"You get a direct line to the strategist running your campaign. **That's not a limitation. That's the advantage.**"

CAP_MODULE – CAPABILITIES

WHAT SPCTR DELIVERS.

Two models. One output: accepted meetings on your calendar.

01

PAY PER MEETING

Outreach done. Meeting accepted. You just show up.

We handle prospecting, outreach, and qualification. You get a calendar invite with a decision-maker who already said yes – nothing left to chase.

- Targeted, verified prospect lists built to your ICP
- Full sending infrastructure provisioned and warmed
- Multi-step cold email sequence executed
- No meeting accepted = no charge

02

FULL PIPELINE OPS

Your full outbound function. Monthly. Hands off.

A junior sales hire fully loaded costs \$60–80K/year. We deliver the same output – consistent booked meetings, every month – for a fraction of that. No ramp time. No management overhead.

- ICP definition + list construction each cycle
- Full sending infrastructure managed end-to-end
- Agreed monthly meeting volume target
- Weekly reports + monthly campaign review

// MTG.PKG – PAY PER MEETING

// OBD.OPS – RETAINER

SPCTR – CONFIDENTIAL

03 / 07

DELIVER_SPEC

WHAT LANDS IN YOUR CALENDAR.

Not a name and a number. Context to close.

// PER MEETING – EVERY HANDOFF

- Full name, title, company, email, phone where available
- Calendar invite – meeting already accepted
- Complete reply thread – never summarized
- The exact email that triggered the response
- One-line intent read (urgency level + context)
- LinkedIn + company background where relevant

You walk into every meeting already knowing who you're talking to and why they said yes.

// ONGOING – RETAINER CLIENTS

- Shared tracking sheet – every meeting logged and timestamped
- Slack or email ping on every confirmed meeting
- Weekly 1-page report: meetings booked, reply rate, sequence performance
- Monthly campaign review + ICP refinement
- List refresh and deduplication each cycle
- Deliverability monitoring – bounce and spam alerts

Speed matters. Every confirmed meeting is forwarded the same day – never held overnight.

— RATE_CARD - PRICING

TRANSPARENT. NO SURPRISES.

Two models. Both built around one metric: accepted meetings.

// PAY PER MEETING

ONLY PAY FOR ACCEPTED MEETINGS

No meeting accepted = no charge.

Flat fee per confirmed meeting with a qualified decision-maker. Lowest-risk way to see what SPCTR delivers before scaling up.

- Flat rate per confirmed booked meeting
- Minimum package size applies
- Meeting + full context delivered same day
- Ideal for: first engagement, targeted campaigns

// MONTHLY RETAINER

YOUR FULL OUTBOUND FUNCTION. EVERY MONTH.

Full function. Fixed cost. No overhead.

Fixed monthly fee. Agreed meeting volume. We run your entire outbound function so your team only ever talks to people who already said yes.

- Fixed monthly investment
- Agreed booked meeting target per cycle
- Full infrastructure + ops included
- Ideal for: scaling outbound without hiring a sales rep

Pricing discussed on intake call – varies by niche, ICP complexity, and volume.

Retainer scoped on intake call based on ICP and volume targets.

// NOTE – Pricing is scoped after a short intake call. A number without knowing your ICP and volume target means nothing. Book at sctr.run

FIT_PROFILE

WHO SPCTR IS BUILT FOR.

We qualify our clients as carefully as we qualify your prospects.

● GREEN LIGHT – GREAT FIT

- B2B company with a defined ICP and a sales team ready to work meetings
- Average deal size \$3K+ – cold email ROI needs room to breathe
- Someone on your team who can follow up within hours, not days
- Realistic timeline expectations – outbound is a 60–90 day game
- Open to sharing what's worked (and what hasn't) in past sales cycles

● YELLOW LIGHT – CONSIDER CAREFULLY

- B2C or very low-ticket – economics get thin below \$1K deal size
- No defined ICP – we can help scope it, but it adds timeline
- Sales cycle longer than 12 months – attribution gets complex
- Highly regulated industries – compliance review needed before launch

- Not sure if you're a fit? **Just book the call.** The intake conversation is designed to figure that out together – no pressure either way.

———— // DEPLOY — READY TO INTERCEPT ————

READY TO INTERCEPT?

The first conversation costs nothing.

// STEP 01

BOOK THE CALL

15–20 min intake to see
if it's a fit.

// STEP 02

ICP BRIEF

We define your ideal
prospect and what "yes"
looks like.

// STEP 03

WE DEPLOY

Infrastructure up.
Campaign live. Meetings
incoming.
